The National Registry of EMTs has indicated that it will not support the Intermediate '99 certification level after the year 2012. However, Virginia maintains the right to continue to support the Intermediate '99 certification level if a need is determined.

In addition, the following four (4) levels are being proposed by DOT for the new National Scope of Practice:

* EMR - Emergency Medical Responder * EMT - Emergency Medical Technician * AEMT - Advanced Emergency Medical Technician * Paramedic - EMT-Paramedic

If you are not familiar with the National Scope of Practice document, then please click on this link to view the recommendation.
